

# 2nd Workshop

“ARISTEIA I”

# 2nd Workshop

<http://www.microbiology.biology.upatras.gr/>

## Invited Speakers

**Anita Rywinska**, Professor  
University of Worclaw, Department of Biotechnology and Food  
Microbiology, Poland

**Piotr Juszczuk**, Professor  
University of Worclaw, Department of Biotechnology and Food  
Microbiology, Poland

**Anna Kancelista**, Professor  
University of Worclaw, Department of Biotechnology and Food  
Microbiology, Poland

**Dimitris Vagenas**, Professor  
University of Patras, Department of Chemical Engineering

## Microbiology and Biotechnological Applications: Challenges and Opportunities II

**Tuesday, 26 May 2015**

**14:00**

Department of Biology, Seminar Auditorium  
University of Patras

## Workshop Program

# 2nd Workshop

“ARISTEIA I”

## Organizing Committee

Professor G. Aggelis

Dr. I.-E. Triantaphyllidou

Dr. S. Bellou

## Workshop Program

14:00 – 14:30

Opening / Welcome

14:30– 14:50

Comparative studies of lipid biosynthesis in heterotrophic and autotrophic microorganisms (S. Bellou)

14:50 – 15:10

Biotechnological Applications of Microorganisms: General Aspect (D. Vagenas)

15:10 – 15:30

Biotechnological application of *Y. lipolytica* to citric acid production from crude glycerol (A. Rywinska)

15:30 – 15:50

Recent advances in yeast biomass production (P. Juszczuk)

15:50 – 16:10

Potential of Solid State Fermentation for valuable metabolites production (A. Kancelista)

16:10 – 16:30

Discussion / Conclusions
